NVRH Green Mountain Care Board Narrative Reporting FY2025

1. As a participant in the 340B Drug Pricing Program, NVRH reinvests program savings to support initiatives that advance CHNA priorities. 340B savings are directed toward community-based services that improve access to care, address social drivers of health, and support medically underserved populations. As reported on Schedule H of our fiscal year 2024 Form 990, NVRH invests *$21,244,957*, or 16.4% of total operating costs, in net Community Benefits.

   Without 340B-supported investments we would be unable or have limited capacity to provide whole-person, patient-centered care in the community such as integrated behavioral health and substance use prevention efforts; transportation assistance and community health worker services that reduce barriers to care; chronic disease prevention and self-management programs; and community-based prevention initiatives.

   Through this structured reinvestment approach, NVRH ensures that 340B savings are translated into measurable community health impact while supporting coordinated, efficient care delivery across the Northeast Kingdom.

2. For FY 2025 NVRH conducts Annual, Quarterly, and Monthly Self Audit Procedures to ensure compliance with the 340B Program Requirements and accurate claims submissions. Results of Self-Audits conducted are documented and saved electronically. NVRH also monitors our current Mixed-Use TPA's (Third Party Administrator's), Pillr's, website to make sure unknown mappings, unknown locations, and unknown providers are identified and corrected to ensure timely processing of claims for the NVRH in-house pharmacy dispensations. This monitoring is done several times monthly. Any changes in NVRH site eligibility is communicated to TPA's as soon as possible. NVRH leverages our TPA relationships to increase visibility on 340b claims to prevent diversion of 340B drugs purchased. NVRH also has a Compliance Committee that meets quarterly. The CFO, Director of Pharmacy, Compliance Office, 340B analyst and Controller make up this committee.
3. The aggregate internal costs related to the 340B program during fiscal year 2025 was $670,930. Following is breakdown of those costs.

| | | |
|---|---|---|
